**NOTE:** ENSURE SCORPION SYSTEM IS CLEAR OF MOVING PARTS AND ALL ORIGINAL FUNCTIONS WORK CORRECTLY.

To fit this Scorpion system the original system needs cutting:

Measure 75mm back from the heat shield after the catalyst. Once cut de-bur the pipework as the Scorpion system fits over it.

Fit the system following the line diagram on the previous page. Once happy with fitment of Scorpion Exhaust, fully tighten up all clamps.

STAY CONNECTED TO RED POWER.
